2. No impaired loans and advances to banks as at				
30 Jun 2024 and 31 Dec 2023				
3. No impaired loans and advances to other financial				
institutions as at 30 Jun 2024 and 31 Dec 2023				
4. No impaired loans and advances to other assets as at 30 Jun 2024 and 31 Dec 2023				
as at 30 Juli 2024 and 31 Dec 2023				

<sup>\*</sup>Impaired loans are advances to customers which have been classified as "substandard", "doubtful" and "loss" in accordance with the HKMA Return of Loans and Advances and Provisions (Form MA(BS)2A) completion instructions.

Bank of Singapore Limited, Hong Kong Branch

# 2. Loans and Advances to Customers by Geographical Segments

The gross amounts of loans and advances to customers by geographical areas are classified according to the location of the counterparties after taking into account the transfer of risk. In general, risk transfer applies when a loan or advances is guaranteed by a party in a country which is different from that of the country. Only countries constituting 10% or more of the aggregate total loans and advances to customers are disclosed.

		30-Jun-20	024

Bank of Singapore Limited, Hong Kong Branch

# 5. International Claims

The information on international claims discloses exposures to foreign counterparties on which the ultimate risk lies, and is derived according to the location of the counterparties after taking into account any recognized risk transfer. In general, such transfer of risk takes place if the claims are guaranteed by a party in a country which is different from that of the counterparty or if the claims are on an overseas branch of a bank whose head office is located in another country. Only countries constituting 10% or more of the aggregate international claims after taking into account any recognized risk transfer is disclosed.

Positive indicates a position of liquidity surplus. Negative indicates a liquidity shortfall that has to be funded.

\* The other assets and other liabilities include derivative contracts; the total column reported their fair values, not total cash flow in each time bucket.

Bank of Singapore Limited, Hong Kong Branch

# (V) Liquidity (Continue)

### 3. Liquidity Risk Management

Liquidity risk is the risk that the Bank of Singapore Limited (the "Bank") is unable to service its cash flow obligation as they fall due without incurring unacceptable costs or losses through fund raising and assets liquidation. The risk includes the inability of the Bank to manage unplanned decreases or changes in funding sources and the failure to recognize or address changes in market conditions that affect the Bank's ability to liquidate assets quickly with minimal loss in value.

The key principles of the Bank liquidity management process involve monitoring against liquidity risk limits that are aligned to the Bank's risk tolerance level approved by the BOS Board of Directors, and OCBC Head of Global Market; managing cash flow to ensure that sufficient sources of funding are available to meet obligations under normal operating and stress conditions; maintaining an adequate liquidity asset buffer for regulatory requirements.

#### Governance

The Board of Directors is ultimately responsible for providing the strategic direction for management of bank's balance sheet risk including liquidity risk and delegates the balance sheet risk management to BOS Global Management Committee "GMC", chaired by BOS Group Chief Executive Office ("CEO") who in turn sub-delegates to Asset Liability Management Committee ("ALCO"), which composed of senior staff from various departments. The responsibility includes approval of operational and procedural changes to policy and the assignment of limits for the Bank of Singapore Limited, Hong Kong Branch (the "Branch").

Corporate Treasury ("CT") manages the liquidity of the bank and Market Risk Management ("MRM") is the primary risk control function and is responsible for monitoring and escalation of any liquidity limits breaches. Additionally, MRM is responsible for formulating and recommending liquidity risk management policy, triggers and limits to ALCO for review and approval. Internal Audit performs periodic reviews to ensure risk management functions are carried out effectively.

## **Liquidity Monitoring**

The Bank manages liquidity risk on a consolidated balance sheet basis with OCBC Bank (the "Group"), through combination of positive cash flow management, match-funding its asset and liability as much as possible, and maintaining a portfolio of high quality liquid assets that is in excess of regulatory requirement. The Branch key sources of fund will be from client deposits or funding through the Group as the Branch does not deal with interbank market for its funding and any excess or shortage of funding is managed by the Group.

## **Liquidity Reporting**

Cash flow analysis and projection reports under Business-As-Usual ("BAU") scenario and Stress scenarios are generated by the Bank's management information system to allow the Bank to assess the day to day maturity mismatch.

Liquidity stress test is performed on daily basis based on different scenarios to identify any negative cumulative flow for the next 30 days. Three stress scenarios are used, namely bank specific, general market crisis, and a crisis involving a combination of the two. Any breaches in stress result will be escalated to ALCO.

Early Warning Indicators ("EWI") are used to identify any potential liquidity problem and trigger management response actions, which include the activation of Contingency Funding Plan ("CFP").

Bank of Singapore Limited, Hong Kong Branch

# (V) Liquidity (Continue)

### 3. Liquidity Risk Management (continue)

#### **Contingency Planning**

The Branch maintains a "CFP" with below key objectives to:

- Identify and recognize a liquidity crisis;
- Define the appropriate management responsibilities and responses during a liquidity crisis;
- Establish the key processes for managing a liquidity crisis;
- Rectify areas of concern and ensure information flows remain timely to facilitate decision making.
- Define communication plans and funding strategies

CFP is reviewed annually to ensure that it stays relevant and a drill test is conducted on the contingency funding plan to ensure that it is operationally effective.

# (VI) Disclosure On Remuneration

The Branch has adopted the remuneration policy of the head office, Bank of Singapore Limited. Bank of Singapore Limited is a wholly-owned subsidiary of OCBC Bank, and OCBC Bank is the sole shareholder. The remuneration framework of Bank of Singapore Limited is largely aligned with the remuneration policy of the OCBC Bank. The objective of the Bank's remuneration policy is to attract, retain and motivate employees to contribute their best.

In relation to the disclosure on remuneration, such information on (but not be limited to) the decision-making process, firm-wide remuneration policy, criteria used for performance measurement and risk adjustment, the linkage between pay and performance, deferral policy and vesting criteria, and the parameters used for allocation of cash versus other forms of remuneration, aggregate information of Senior Management and Material Risk Takers, where applicable, in respect of guaranteed bonuses, sign-ons, severance payments and variable remuneration awarded during the financial year, and the breakdown of total compensation of OCBC Bank's Chief Executive Officer, are disclosed in the Annual Report of OCBC Bank.

Bank of Singapore Limited, Hong Kong Branch

### Section B - Bank Information

The following information represents financial information of Bank of Singapore Limited which is a wholly owned subsidiary of Overseas-Chinese Banking Corporation Limited. The financial information has been extracted from its most recent published financial statements. Please refer to annual accounts available on the public registry of the Hong Kong Monetary Authority's Public Registry for further information.
